

REMARKS/ARGUMENTS

The amendments to the specification listed hereinabove on pp. 2-3 are requested to cancel unintentional references to omitted drawings that were present in the original version of the specification. In addition, the amendments also correct unintentional misnumbering in the Brief Description of Drawings and restore the brief description of some of the drawings whose descriptions were unintentionally omitted in the original version of the specification. No new matter has been included.

All of the above changes correct typographical errors that were entered unintentionally in the original submission.

On behalf of Rosetta Genomics,

Yaffa Schindler
